

Meet Thacker

Mumbai, Maharashtra, India · +91 70698 08411 · meetthacker564@gmail.com · github.com/LIGHTNING564 · linkedin.com/in/meetthacker564

SKILLS

Languages:	Python, Java
AI / LLMs:	Google Gemini API, LLM prompt engineering, ChatGPT, n8n
Tools:	Tesseract OCR, OpenCV, MediaPipe, Git, GitHub, PDF generation libraries, Inno Setup
Concepts:	AI-Assisted Development, Computer Vision, Document Processing, Risk Scoring Pipelines, Automation Workflows, Software Packaging (EXE)

PROJECTS

AI Compliance & Risk Auditor Jan 2026 – Present

Python · Google Gemini API · Tesseract OCR · PDF Generation

- Built an end-to-end AI-powered compliance auditing system that ingests documents, extracts structured risks, and generates risk scores using Google Gemini LLM.
- Integrated Tesseract OCR to process scanned and image-based files, enabling the system to handle non-digital documents automatically.
- Automated audit-ready PDF report generation, eliminating manual analysis and formatting effort.
- Built a functional frontend interface using AI-assisted development tools.

Developed as part of the SMLRA Automate with n8n challenge, KJ Somaiya — Jan 2026

Gesture-Controlled Music Player 2024

Python · OpenCV · MediaPipe · Inno Setup

- Built a real-time hand gesture recognition system using OpenCV and MediaPipe that lets users control music playback and volume from a distance — no keyboard or mouse needed.
- Engineered the detection pipeline to run silently in the background, activating on launch with zero manual setup required.
- Packaged the full application as a standalone Windows EXE using Inno Setup, making it immediately runnable on any machine without a Python environment.

EDUCATION

B.Tech — Computer Engineering Aug 2025 – Present

KJ Somaiya College of Engineering, Vidyavihar, Mumbai

CERTIFICATIONS & ACTIVITIES

Automate with n8n: The Final Challenge Jan 2026

Somaiya Machine Learning Research Association (SMLRA), KJ Somaiya

- Competed in an automation challenge focused on building real-world AI workflows using n8n.
- Delivered the AI Compliance & Risk Auditor — an LLM-powered document analysis and risk scoring system — as the challenge submission.
